

# BRAKE FLUID PREMIUM

## Extra High Performances Brake Fluid

BRAKE FLUID PREMIUM is a high performance heavy duty fluid recommended for disc or drum brakes and hydraulic clutch systems. It is based on polyethylene glycol ether technology to provide the highest level of brake and clutch performance in modern as well as older model automotive and commercial vehicles.

---

### Benefits

- High boiling point and minimum rubber component swell
- Excellent corrosion protection

---

### Applications

- Suitable for all disc, drum and anti-skid braking systems used in average to high performance vehicles requiring DOT 3 and DOT 4 performance level

# BRAKE FLUID PREMIUM

Extra High Performances Brake Fluid

## Specifications

BRAKE FLUID PREMIUM		
Meets the following Specification:		DOT 4
US FMVSS 116		✓
SAE J 1703		✓
SAE J 1704		✓
ISO 4925 (Classes 3 & 4)		✓
Typical properties		
Test parameters	Units	DOT 4
Density at 20°	Kg/L	1.023 to 1.077
Dry boiling point	°C	> 230
Water content	%	< 0.20
PH		7 to 11.5
Viscosity at 50°C	mm <sup>2</sup> /sec	> 4.2
Flash point:	°C	> 100

Above characteristics are mean values given as information. They do not constitute a specification.

## Health and safety

This lubricant is unlikely to produce any significant health or safety hazard when used in the application it has been designed for and according to the recommendations provided in the Material Safety Data Sheet. MSDS are available upon request through your sales advisor.

When disposing of used oil, please observe all current regulations and protect the environment.
